Work Experience

SP Plus Corporation, Chicago, IL

Supervisor, Financial Reporting and Technical Accounting

January 2022 - Present

- Onboarded and trained Senior Financial Analyst, focusing on system inter-connectivity and leveraging system synergies to improve time saving and accurate reporting initiatives
- Investigated system menu of services to leverage systems in creating more reliable and detective controls
- Reviewed Senior Financial Analyst's work for accuracy and reliability, evaluating output for use in creating clearer process documentation and applying and improving technology solutions for clearer data generation

Senior Financial Analyst, Financial Reporting and Technical Accounting

June 2021 - December 2021

- Worked with financial reporting manager to leverage system inter-connectivity to create data links throughout regulatory filings
- Automated workpapers to pull data from a variety of sources across multiple platforms

The Northern Trust Company, Chicago, IL

Technical Coordinator, GFS Financial Reporting

October 2020 -June 2021

- Served as a technical resource on GAAP-related issues regarding financial reporting and disclosure for the department, training and mentoring associates on industry-specific subject matter and internal procedures, always looking to create technology-driven processes to improve efficiency
- Designed workpapers using VBA macros to pull information from accounting software, troubleshooting failed implementation and corrected VBA functionality to ensure efficient time management and accuracy of reporting

Accountant, GFS Financial Reporting

November 2018-October 2020

- Prepared and reviewed financial statements, supporting adjusting journal entries and workpapers for a variety of fund structures, focusing on accuracy of information and data integrity within and through supporting systems
- Communicated with auditors and clients during interim and year-end audits, coordinating supporting documents, deliverables and timely responses to queries and requests, assisting with walkthroughs of data entry and system functionality
- Undertook ad hoc projects and tasks, including migration of funds between structures and systems, month end department processes, regulatory filings, data reconciliations and troubleshooting between different departments, etc.

DeMarco Sciacotta Wilkens & Dunleavy, LLP, Frankfort, IL

September 2017-November 2018

Staff Accountant

- Prepared business and corporate tax returns in accordance with IRS pronouncements, mentoring new hires on tax systems use
- Performed audit fieldwork for broker-dealers focused on data integrity and system reliability, participating in and documented system walkthroughs with clients to develop understanding of data generation and sourcing

Cortland Capital Market Services, Chicago, IL

August 2016-August 2017

Fund Accounting Analyst, Non-Operating Private Equity/Real Estate

- Recorded, trained and reviewed transactions booked in the accounting ledger, focusing on system functionality and process improvement initiatives leveraging IT and own skill set
- Onboarded private equity funds to new general ledger accounting system, attempting to leverage system synergies to improve data integrity and facilitate the generation of accurate and timely reports
- Explored potential technology-driven solutions aimed at improving time management and turnaround for client deliverables
